PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of experience building scalable web applications using React.js, TypeScript, Node.js, Express.js, MongoDB, and MySQL. Experienced in developing REST APIs, authentication systems, responsive user interfaces, and database-driven applications. Hands-on experience with Redux Toolkit, API integration, state management, and application performance optimization. Strong understanding of Agile development practices and passionate about building reliable, maintainable, and user-centric software solutions.

TECHNICAL SKILLS

Frontend

React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Redux Toolkit

Backend

Node.js, Express.js, REST API Development, JWT Authentication, Socket.io, API Integration

Databases

MongoDB, MySQL, PostgreSQL

Tools & Platforms

Git, GitHub, Postman, VS Code, Vite, Webpack

Core Competencies

Authentication & Authorization, Role-Based Access Control (RBAC), Responsive Web Development, State Management, Database Integration, Agile & Scrum, Code Review, Problem Solving

PROFESSIONAL EXPERIENCE

Full Stack Developer

CC YARD Pvt Ltd | Bengaluru, India

June 2025 – Present

Key Contributions

- Developed and maintained scalable healthcare web applications using React.js, TypeScript, Node.js, and Express.js.
 - Built reusable frontend components, improving code maintainability and development efficiency.
 - Designed and implemented secure REST APIs with JWT authentication and Role-Based Access Control (RBAC).
 - Integrated frontend applications with backend services and MongoDB/MySQL databases.
 - Optimized application performance by reducing unnecessary API calls and improving UI responsiveness.
 - Collaborated with designers, backend developers, and QA teams following Agile/Scrum methodologies.
 - Managed application state using Redux Toolkit for scalable frontend architecture.
 - Used Git and GitHub for version control and collaborative development.
-

PROJECTS

Healthcare Management System

Organization: CC YARD Pvt Ltd

Tech Stack: React.js, TypeScript, Python, MongoDB

- Developed a healthcare platform supporting patient onboarding and appointment scheduling workflows.
 - Built secure REST APIs for frontend-backend communication.
 - Implemented JWT Authentication and Role-Based Access Control (RBAC).
 - Added form validation and comprehensive error handling to improve application reliability.
 - Designed responsive interfaces optimized for desktop and mobile devices.
 - Enhanced workflow efficiency through user-focused UI improvements.
-

Doctor Dashboard Application

Organization: CC YARD Pvt Ltd

Tech Stack: React.js, Redux Toolkit, Python, MongoDB

- Developed an interactive dashboard for doctor and patient management.
- Built backend APIs for reporting, analytics, and patient data retrieval.
- Implemented filtering, searching, sorting, and pagination functionalities.

- Integrated frontend applications with backend APIs and database services.
 - Improved user experience through responsive layouts and optimized application performance.
 - Utilized Redux Toolkit for centralized state management.
-

StyleWave360 – Fashion E-commerce Platform

Tech Stack: React.js, TypeScript, Node.js, Express.js, MongoDB

- Developed a modern fashion e-commerce web application with responsive user interfaces.
 - Built product listing, product details, and category-based filtering functionalities.
 - Developed RESTful APIs for product management and user operations.
 - Integrated MongoDB for efficient storage and retrieval of product and user data.
 - Improved application performance through reusable components and optimized API interactions.
 - Implemented shopping cart functionality and optimized user interactions for a seamless shopping experience.
-

EDUCATION

Bachelor of Technology (B. Tech) in Computer Science and Engineering

ICFAI University

2021 – 2025

CGPA: 8.12 / 10
